CHURCH OF ENGLAND HIGH SCHOOL

28th April 2026

Dear Parents and Carers,

Information for Parents and Pupils – New Exam Results App

The Department for Education (DfE) has introduced a new Education Record app, which allows pupils to access their exam results digitally and securely.

What is the app?

The app gives pupils a personal digital record of their qualifications, including GCSE results, which can be accessed on their phone once results are released. This will help them when enrolling in sixth form or college and later when sharing qualifications with employers or training providers.

Who can access it?

Please note that the app is designed for pupils, not parents. Results will continue to be issued by the school in the usual way on results day, but pupils will later be able to view their results independently through the app.

What pupils need to do now:

We are asking pupils to download the app in advance, ready for sign-up in school:

- Search for '**Education Record England**' on the Apple App Store or Google Play Store
- Download the app onto their phone

What will happen in school:

We will organise time in school for pupils to complete their sign-up. During this session:

- A member of staff will support them
- Pupils will scan a QR code issued by the school
- This will securely link the app to their education record

No results are released through the app until the official results date.

We will share further details with pupils directly, and there is no action required from parents at this stage beyond encouraging pupils to download the app.

Thank you for your continued support.

Yours sincerely,

Mr Miles Winter
