

Archbishop Tenison's

CHURCH OF ENGLAND HIGH SCHOOL

2nd March 2026

Dear Parents and Carers

Year 9 Assessments – Week Commencing Monday, 20th April 2026

I am writing to inform you about the plans for your child's Spring assessment window. Year 9a Assessments will take place in the Hall. Due to the nature of the timetable, it is therefore not practical to issue actual timetables as there would be many different versions, however your child's subject teacher will inform them of the exact time of their assessment.

These assessments are a great opportunity for your child to showcase the knowledge, understanding and skills they have gained during their time at Tenison's so far, as well as being an important opportunity to gain excellent quality feedback on how to progress further. All assessments will run under strict exam conditions to ensure pupils have the opportunity to produce their best work.

The subjects that will be assessed are:

- Art
- Computer Science
- Drama
- English
- French
- Geography
- German
- History
- Latin
- Maths
- P.E
- Religious Studies
- Science

Please find below the list of topics that will form the basis of your child's assessments and therefore should be the focus of their revision:

- **Art:** Human Rights
- **Computer Science:** Cyber security, Representing Images and Sound, Python Programming, Computational Thinking

Selborne Road, Croydon CR0 5JQ • Tel: 020 8688 4014

www.archten.croydon.sch.uk

Headteacher: Richard Parrish MA (Oxon)

- **Drama: Section A:** Theatre Makers roles and Vocabulary
Section B: Live Theatre Evaluation
- **English:** Macbeth
- **French: Module 1:** Mon monde á moi
Module 2: Projets d' avenir
Module 3: Ma vie en musique
- **Geography:** Antarctica: Living off the Earth's resources; Ecosystems; Climate Change
(please note that as these assessments are end of year assessments, they will contain questions from a number of topics)
- **German: Module 1:** My Role Model, Parts of the Body, what have you done in your life (past tense with sein and haben),
Module 2: Music, Future plans, what instruments you play, Making comparisons (Comparative and superlative), Past tense (Separable verbs and non-separable verbs), Question words.
- **History:** World War One, the Suffrage Movement, The Holocaust, World War II turning points.
- **Latin:** Cambridge Latin Course Stages 10-12, Roman Families and Relationships (including literature)
- **Maths:** Properties of Number, Percentages, Area and Volume, Equations, Inequalities and Formulae, Fractions, Rates, Standard form, Maths and Money, Straight Line Graphs, Ratio and Proportion, Constructions and Congruence, Similarity, Algebraic Manipulation.
- **Physical Education:** Immediate; Short and long-term effects of exercise; Components of Fitness; Types of training; Muscles; Bones; Principles of training.
- **Religious Studies and Theology:** Selected questions from all topics studied this year - Philosophy and Ethics.
- **Science:**
 - **Biology:** Cells, Microscopes and Enzymes
 - **Chemistry:** Particles - states of matter and separation techniques
 - **Physics:** Motion and Energy

The secret to great revision is to test yourself so that you have to recall information from memory. Below are some ideas you can use to add variety and make revision more interesting:

1. Remembering Key Facts

Help your child get things to stick in their memory.

What Helps	What It Means	What You Can Do
Quick Quizzes	Testing themselves helps memory more than just reading notes.	Ask them questions from flashcards or past papers. Let them try to answer before looking it up.
Little and Often	Spreading revision out over time works better than cramming.	Help them plan short sessions across the week, not all at once.
Mixing Topics	Switching between subjects or topics helps the brain stay active.	Encourage them to revise different subjects in one evening.
Pictures and Words	Using diagrams or drawings alongside notes helps memory.	Help them turn notes into mind maps or labelled diagrams.

2. Understanding Ideas Better

Help your child make sense of what they're learning.

What Helps	What It Means	What You Can Do
Explain It Back	Talking through ideas helps them understand.	Ask them to teach you a topic or explain how something works.
Real-Life Examples	Linking ideas to everyday life makes them clearer.	Chat about how school topics show up in cooking, sports, or the news.
Talk Through Mistakes	Explaining why something was wrong helps learning.	Go through a question they got wrong and ask, "What would you do differently next time?"

3. Getting Ready for Exams

Help your child feel confident and prepared.

What Helps	What It Means	What You Can Do
Practice Papers	Doing past papers builds confidence.	Set up quiet, timed sessions. Praise effort, not just results.
Learn from Mistakes	Reviewing errors helps improve.	Help them spot patterns in what they get wrong and talk about how to fix it.
Time Planning	Knowing how long to spend on each question is key.	Help them practice timing themselves and moving on when stuck.

Teachers will have given your child more in-depth information regarding the assessment and will be placing revision materials and guidance on Teams for pupils to access, so please do encourage them to take their revision seriously.

If you have any questions, please do not hesitate to contact your child's tutor in the first instance.

Yours sincerely

Mr Winter – Senior Assistant Headteacher
