

Archbishop Tenison's

CHURCH OF ENGLAND HIGH SCHOOL

SIXTH FORM: Religious Studies

Religious Studies Course Overview

Christianity

A mixture of philosophy, theology, ethics, history and debates within Christianity.

Looking at:

- The Trinity
- Jesus
- The problem of evil
- Religious experience

Ethics

This unit connects to real life scenarios.

You will:

- Look at actual moral dilemmas
- Different ways of thinking about morality
- Challenge theories

Philosophy

You are learning not just what religious and non-religious people believe but whether those beliefs are justified.

This includes:

- Arguments for God's existence
- The problem of evil
- Religious language
- Miracles

What's great about Religious Studies at Tenison's Sixth Form?

Within Religious Studies you will learn how to critically engage with a wide range of subject content. You will be comparing arguments, evaluating evidence and, explaining why a philosopher or scholar might be right or wrong. Students develop their debating and discussion skills which are easily translated to other subjects and into University life.

It also connects to real-world issues; within Ethics we look at animal rights and euthanasia. Students will also develop their essay-writing skills, complimenting other essay-based subjects.
